Subject: Supplier Approval Notification

On behalf of Bombardier Aircraft Services, thank you for your time and cooperation. We reviewed the information you provided in support of your reapproval effort to remain on our list of suppliers with whom Bombardier Aircraft Services may do business. We are happy to inform you that we have decided, based on the information that you provided to us, to retain you as a supplier with whom our service centers may do business. Your inclusion on this list of suppliers, however, should not be construed as a guarantee that we will purchase any goods or services from your company; nor should it be considered an endorsement of your company by Learjet or Bombardier.

You may not use the fact that we have agreed to include your company on our list of approved suppliers for advertising or marketing purposes, and this information should not be shared with any third parties for the purpose of marketing or soliciting business. Furthermore, at any time and with or without stating a reason, Learjet or Bombardier may remove your company from the list of approved suppliers.

Please notify us at the address below of any material changes in ownership, name, or location. In addition, should you make any changes to your capabilities, it is your responsibility to notify us immediately so our systems can be updated. We also ask that you immediately notify us of any material change in the information that you provided to us in support of your request.

We look forward to working with you in the future.

Regards,

Sohini Mahapatra
